## DETAILED ACTION

### ***Allowable Subject Matter***

1. Claims 1-13 are allowed.
2. The following is an examiner's statement of reasons for allowance: the method of tenderizing meat and/or killing microbes in meat of independent claim 1 defines over the prior art of record because the prior art does not teach, suggest, nor render obvious the meat being confined and compressed to eliminate any air pockets while tightly sealed within a tunnel during the shock wave treatment; the method of tenderizing meat and/or killing microbes in meat of independent claim 8 defines over the prior art of record because the prior art does not teach, suggest, nor render obvious the diaphragm being above the piece of meat and shock wave passing down through diaphragm and into the piece of meat.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Guberman et al [Pat. No. 3,711,896] teach a method and device for tenderizing meat with ultrasonic waves.
